Bonjour! We're looking forward to cross country for all divisions on Saturday at the PEDIGREE® Bromont CCI Three-Day Event in Quebec, Canada. Designed by Derek Grazia and built by Jay Hambly and Dylan Barry, the tracks have been beautifully prepared. Riders report the courses are all certainly tough enough and the footing is excellent.

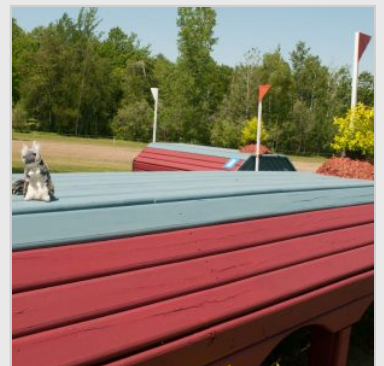

For the CCI3\* track, competitors will jump 26 numbered fences with 40 total efforts. At a distance of 5,714 meters the optimum time will be 10 minutes 2 seconds. While it is an open, galloping track the terrain makes the time quite difficult to catch.

Le Chinch took a tour around the course yesterday. He's pictured in most of the photos in the gallery below. Can you spot him?
